*Abstract—*

I. INTRODUCTION

II. EXPERIMENTS PROCEDURES AND RESULT

III. CONCLUSIONS

\*This work is the report of the laboratory section of course ECSE 331 offered at McGill University.

<sup>1</sup>C. Zhou is with the Department of Electrical and Computer Engineering, Faculty of Engineering, McGill University, Montreal, QC H3A 0E9 Canada, (email: chang.zhou2@mail.mcgill.ca)

<sup>2</sup>S. Wang is with the Department of Electrical and Computer Engineering, Faculty of Engineering, McGill University, Montreal, QC H3A 0E9 Canada, (email: siyu.wang5@mail.mcgill.ca)

<sup>3</sup>H. Du is with the Department of Electrical and Computer Engineering, Faculty of Engineering, McGill University, Montreal, QC H3A 0E9 Canada, (email: haoran.du@mail.mcgill.ca)
